

Health Insurance Coverage & Eligibility

San Diego County, Children Ages 0-18, 2001

TABLE 1. HEALTH INSURANCE COVERAGE OF CHILDREN, AGES 0-18, 2001

Coverage Type	Percent ^a	95% Confidence Interval ^a	Number
Uninsured*	12.3	9.3 - 15.3	95,000
Medi-Cal	18.2	14.5 - 22.0	141,000
Healthy Families	5.0	3.2 - 6.7	39,000
Employment-Based	60.8	56.6 - 65.0	470,000
Privately Purchased	2.7	1.4 - 3.9	21,000
Other Public Coverage	1.0 ^c	0.4 - 1.7	8,000
Total Population in 2001	100.0	-	773,000 ^b

*There is no data for 2003 from the California Health Interview Survey. However, if we apply the uninsured percentage from 2001 (12.3%) to the 2003 population ages 0-18 (789,000), there would be an estimated 97,000 children uninsured. (Population from SANDAG, Current Estimates, August 20, 2003.)

Notes and References:

Numbers may not total to 100% due to rounding.
